

Sales Performance Across Customer and Product Ranges

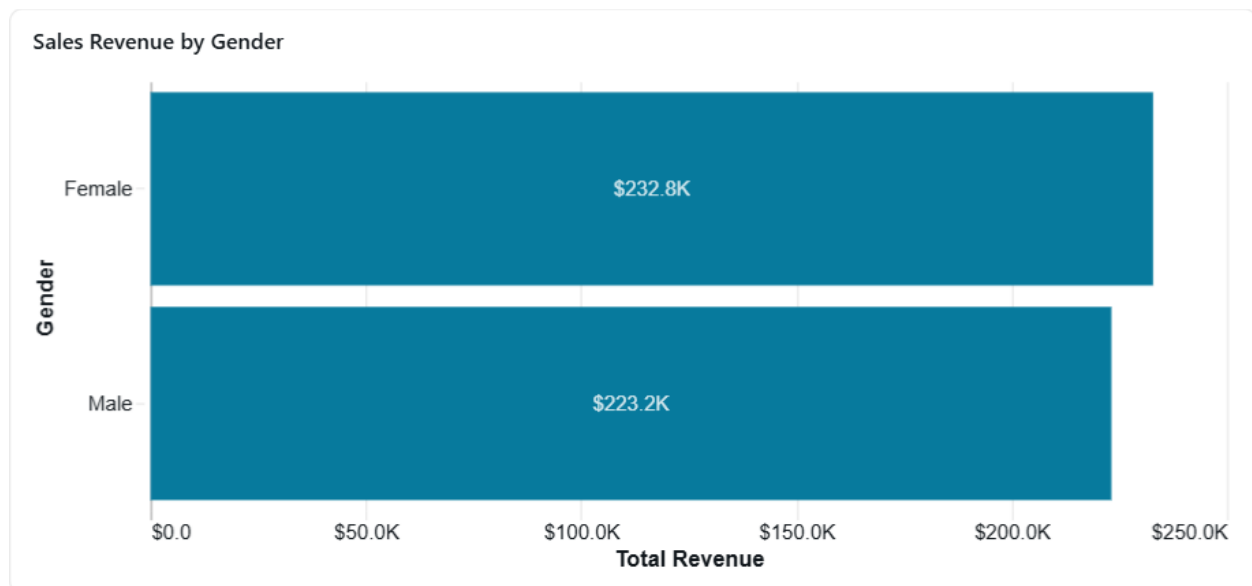

Sales by Age Range

The **45-54 age group leads in total revenue at \$97,235**, closely followed by the 25-34 (\$97,090) and 35-44 (\$96,835) age ranges. The youngest segment (18-24) shows notably lower revenue at \$74,650, while the 55+ group contributes \$90,190.

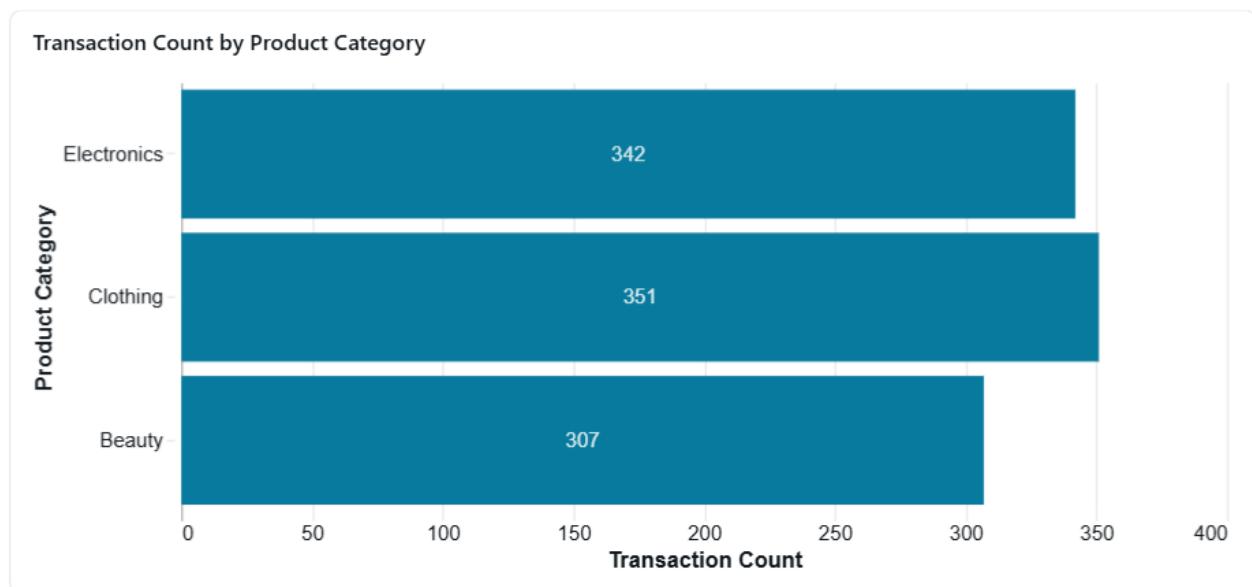

Sales by Gender

Sales are nearly evenly split between genders, with **Female customers generating \$232,840** (51%) and Male customers contributing \$223,160 (49%). Average transaction values are virtually identical at \$456.55 for females and \$455.43 for males.

Transaction Volume by Product Category

Clothing leads in transaction volume with 351 transactions, followed closely by Electronics (342) and Beauty (307). Despite having fewer transactions, Beauty products command the highest average transaction value at \$467.48, compared to Electronics (\$458.79) and Clothing (\$443.25).

Key Insights

Balanced Demographics: The business shows strong performance across middle-aged customers (25-54), who collectively represent over 63% of total revenue, while maintaining relatively balanced gender distribution.

Product Mix: While Clothing generates the most transactions, Beauty products deliver higher per-transaction value, suggesting different purchasing behaviors across categories.
